

Combination Boiler Primary/Secondary Manifold Kit

Part# MK-NRCB-1

Compatible with Model NRCB180 or NRCB199

- Save installation time and cost with pre-fabricated manifold kit
- Optimize heating performance and overall efficiency
- Features:

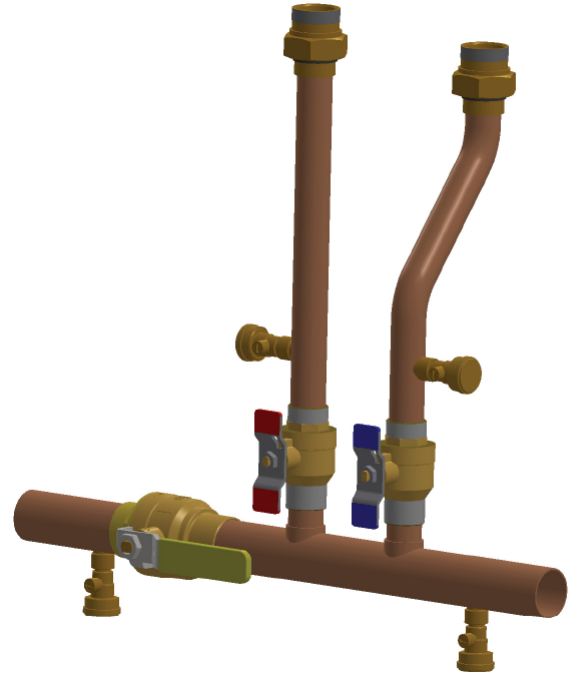

Made with type L copper tubing.

1" FNPT dielectric unions for Boiler Supply and Return.

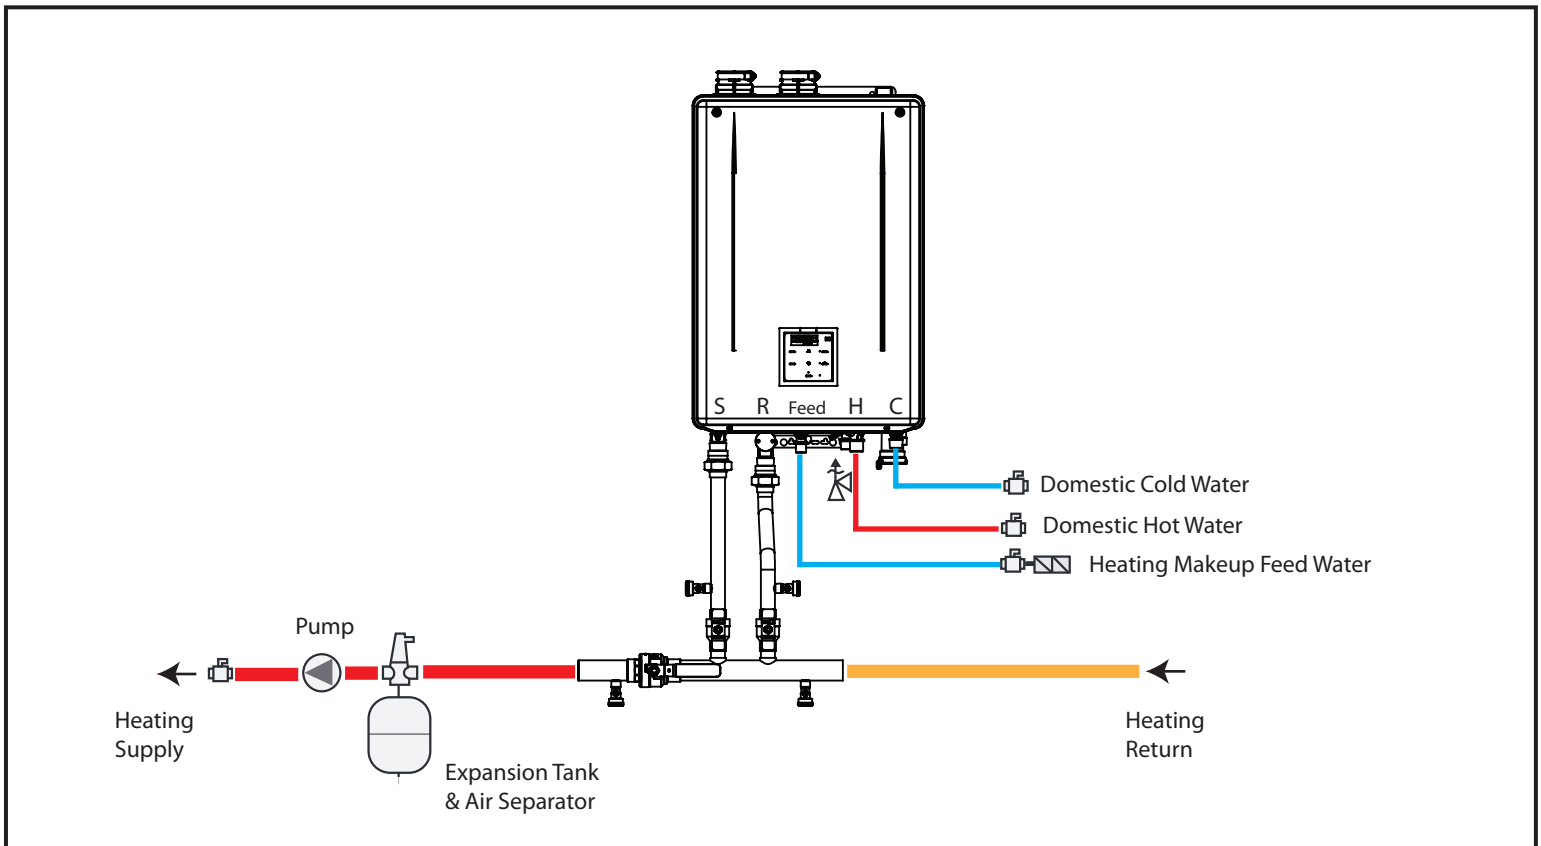

Boiler loop 1" isolation valves and 3/4" connection purge ports.

Secondary loop 1-1/2" valve and purge ports for easy flushing.

1-1/2" sweat connections on supply and return pipe.
