RELEASE DATE

October 1, 2019

NEW

NRCP (2019)

RESIDENTIAL TANKLESS WITH PUMP

The Noritz NRCP tankless water heater offers the latest in cutting edge technology for tankless water heaters. In addition to an upgraded Grundfos Pump, it also features energy saving modes to match your water usage habits.

NEW FEATURES

Crossover Mode

The new Crossover Mode eliminates the requirement for a dedicated recirculation loop. **(Sold Separately, item # cCS-V)**

Simplified Recirculation Timer Setup

Easy-to-use timer for customizable recirculation settings.

On-Demand Mode

Using the IHK-NRCP kit accessory (sold separately), recirculation is ready at the touch of a button.

New Cover & Finish

The NRCP now comes with a sleek white finish, accenting your installation with a clean appearance.

Upgraded Components

Redesigned for 2019, we've taken our NRCP unit and upgraded it with a Grundfos Pump, Time Engineering Mixing Valve, and Honeywell Gas Valve.
